

Free screening at the J.D. McCarty Center

A therapeutic screening is a unique opportunity for families with children with disabilities to meet with experts at the J.D. McCarty Center who can share information about services that can benefit your child.

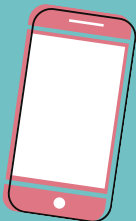

The free screenings are offered at the J.D. McCarty Center in Norman.

Here's how the process works:

1.

REACH OUT

To schedule a free screening, call the center's social services department at [405-307-2800](tel:405-307-2800).

2.

TEAM MEETING

Meet with the center's screening team that includes a pediatrician, nurse, psychology clinician and social worker.

3.

LEARN ABOUT RESOURCES

The screening offers families the opportunity to talk with our experts and learn about statewide resources. Here are other benefits of the process:

- Families receive a tour of the J.D. McCarty Center and information about services at the center and state and federal programs that also can assist your child.
- The screening team can assist a family with determining what educational needs your child may have and how to work with your child's school to meet those needs.
- A screening can help connect families with parent support services.
- The screening team can offer tips to parents about managing behaviors and assist families with identification of strengths and support areas.

4.

HERE TO HELP

The screening helps get you connected to the people and programs at the J.D. McCarty Center and throughout the state.

The center is a pediatric rehab hospital that specializes in the care and treatment of children with developmental disabilities from birth to age 21.

We provide medical care and physical, occupational, speech and language therapy and Applied Behavior Analysis therapy on an inpatient and outpatient basis. We also offer specialty clinics, including an equipment clinic; a respite program; and outreach programs.

We have a team of physicians, nurses, therapists, board-certified behavior analysts, registered behavior technicians, direct-care specialists, psychology clinicians, social workers, nutritionists and insurance specialists who are ready to help your family.
